Exotake is a pure play professional services company, thus differentiating ourselves from generic intermediaries and third parties.

We are NOT “consultants”: we will not limit ourselves to supplying recommendations to you. We are tooled and skilled to carry out all the typical tasks of accomplished technical sales managers, sales directors, product managers, account managers, software developers.

We will work under strict exclusivity for you whenever a retainer is included in our agreement; under such circumstances your pipeline of opportunities will be considered exclusively yours and we pledge NEVER to introduce any of your direct competitors to the same opportunity we have been cultivating on your mandate.

Our strength lies in representing the technology supplier DIRECTLY, thus creating the necessary channel of trust with the buying prospects in the region.

We have almost 10 years of established operations in the LATAM region, counting on an extensive network of collaborators and partners.

We can scale our services to mirror your current situation as well as your pre-disposition to use channel partners, your penchant for international sales, your required degree of involvement and control you want to retain.

A brief outline follows, describing a simple form of cooperation, designed to prepare the ground for your entry into new markets.

**Sales pooled Retained** is a retainer remunerated service.

The depth of engagement is left at the complete discretion of Exotake. The selection of target markets and target prospects within those markets is guided by purely opportunistic considerations of either readily available opportunities or available resources in place. The service is designed to be a low cost and pragmatic approach to existing opportunities, with effort pooled by Exotake- allowing your company to ride on established channels and existing business development and sales process. These parallel efforts are always on behalf of solutions parallel to yours and not directly in competition

This service package is an articulation of a pooled mode of engagement with opportunities indicated by Exotake.
